

COIN, Learning

I can travel at the speed of light
I can drive a car between the lines
There's no algorithm for intuition
You just know

But I'm learning to love
Learning to trust
Maybe I'm more than zeros & ones
Learning to fall into somebody's arms
Throw out the logic and follow my gut
I'm ready to jump
I'm coming unplugged
I'm learning to love

I'm learning to love...
