

Colbie Caillat, Midnight Bottle

Midnight bottle take me come with me my memories and everything come back to me
Midnight bottle make it real what feels like make believe so I can see a little more clearly
Like every single move you make kissing me so carefully on the corners of my dreaming eyes

I've got a midnight bottle gonna drink it down
A one way ticket takes me to the times we had before
When everything felt so right
If only for tonight I've got a midnight bottle gonna ease my pain
From all these feelings driving me insane
When I'm with you and everything's all right if only for tonight
Got a midnight bottle drifting off into the candlelight where I can find you in your time
A midnight bottle I forgot how good it felt to be in a dream just like you had me
Cuz lately I've been stumbling feels like I'm recovering
But I think it's only for tonight

I've got a midnight bottle gonna drink it down
A one way ticket takes me to the times we had before
When everything felt so right
If only for tonight I've got a midnight bottle gonna ease my pain
From all these feelings driving me insane
When I'm with you and everything's all right if only for tonight
If only for tonight, if only for tonight, if only for tonight

I've got a midnight bottle gonna drink it down
A one way ticket takes me to the times we had before
When everything felt so right
If only for tonight I've got a midnight bottle gonna ease my pain
From all these feelings driving me insane
When I'm with you and everything's all right if only for tonight
If only for tonight, if only for tonight, if only for tonight
