

# Colbie Caillat, We Both Know (ft. Gavin DeGraw)

Gavin DeGraw:

They all say it, all the ones that made it  
Once you find the one you claim it  
But you're gonna have to fight

Colbie Caillat:

When I think back  
The things that threw us off track  
We handled like a heart attack  
Cause we didn't see the light  
Oooh, oooh, and now

Chorus [Gavin DeGraw and Colbie Caillat]:

We both know our own limitations  
and that's why we're strong  
Now that we're spent some time apart  
We're leading each other out of the dark,  
Cause we both know

Gavin DeGraw:

From this moment  
Forget what we were scared of  
Say we're never giving up  
Say you'll always try to be my helping hand  
Try to be the one who understands  
When things don't go as you plan  
But we're still worth it all  
Oooh, oooh, and now

Chorus [Gavin DeGraw and Colbie Caillat]:

We both know our own limitations  
and that's why we're strong  
Now that we're spent some time apart  
We're leading each other out of the dark,  
Cause we both know

What we're scared of  
What we're scared of  
And what dreams are made of  
What dreams are made of  
They can take us  
Further than what anybody can see

Chorus:

We both know our own limitations  
and that's why we're strong  
Now that we're spent some time apart  
We're leading each other out of the dark

We both know our own limitations  
and that's why we're strong  
Now that we're spent some time apart  
We're leading each other out of the dark,  
Cause we both know, we both know
