

Colby O, I Wanna Touch You

If it's game or money
I can steady run it
I can set you up honey
Til you turn, turn, turn, turn
But you tell me you're solid
That your boyfriend's got it
Still I stay up on it
Cause it burns, burns, burns, burns

Chorus

I wanna touch you but I'm tryin' to keep control of my hands
I wanna touch you but you're probably makin' love to your man
I wanna touch you but I gotta make myself understand
That I can't but I can't understand that I can't

(repeat 3x)

And the more you sayin
That you won't I stay in
Tryin' to get you to stray'n
So you turn, turn, turn, turn
You don't ever holler
'Cause you too straight loyal
Make my temperature boil
Til it burns, burns, burns, burns

Chorus

I wanna touch you but I'm tryin' to keep control of my hands
I wanna touch you but you're probably makin' love to your man
I wanna touch you but I gotta make myself understand
That I can't but I can't understand that I can't

(repeat 3x)

If shorty's worth it then she's
Somebody else's 'cause they
They usually taken if they shine like you do
If shorty's interested I know I can infiltrate but
It's hard to break them when they shine like you do

Chorus

I wanna touch you but I'm tryin' to keep control of my hands
I wanna touch you but you're probably makin' love to your man
I wanna touch you but I gotta make myself understand
That I can't but I can't understand that I can't

(repeat 3x)
