

# Cold, Came All The Way

Why can't we save the future?

Are we too blind to see?

What makes us think of failure

We can't believe

I can't control emotions

Confined conspiracy

I travelled far for no one

I can't believe

Chorus

I came all the way today for nothing

All the way

I came all the way today for nothing

All the way

I'll make a promise to break

My wicked tragedies

I'll try to save the pieces

And build a dream

I'll carry on forever

Until I cannot be

I travelled far for no one

I can't believe

Chorus (2x)

All the way (6x)
