Cold Chisel, The Last Wave Of Summer

On the last wave of summer I lost my soul to you The last wave of summer I lost it all to you Every thing has a time This I know is true I could live forever This perfect day with you There's a cold winter comin' I can feel the change It's the last wave of summer We'll ever see again Lets ride... There's a cold winter coming Can you feel the change It's the last wave of summer We'll ever see again
