Cold Chisel, The Things I Love In You

Sittin' on the corner drinkin' my beer Told all the others happy new year Told everybody some things I knew I knew Told everybody don't cry How this thing with you Doesn't really matter any more Never really mattered anyway Only I do wonder how you'd feel If it were you In my shoes

Could you change, I wonder If you knew All the things I love in you

If I had a dollar for every time I hung out on the corner doin' time While you showed another through all All the things I love

Could you change, I wonder If you knew All the things I love in you
