

# Cold, Feel It In Your Heart

Cant run away from love if yo cannot feel  
Everything falls apart in a tragedy  
I am so far away from gone  
I just wanna be here  
Everyone forms apart in my symphony

[Chorus:]  
Can you feel this in your heart  
Can you take it to your soul  
I don't want you to pretend  
I don't wanna be alone

Feels like im torn apart  
And I cannot bleed  
Caught in the web you made  
This just can't be real  
I am so far away from gone  
I just wanna be here  
Everyone falls apart in this tragedy

[Chorus]

I don't wanna be alone  
Everyday I'll live through this alone  
Inside ive changed  
Everyday I'll live through this alone

[Chorus]
