

# Cold, Kill The Music Industry

They change your faith  
It's gone to far to name  
the way you see  
The things they'll change  
Your life and control  
your mind  
I can't relate to it

[Chorus]  
Sick of all this monotony  
Kill the fuckin' music industry

They trust the way they feel  
in their minds its time  
for us to scream  
The things they'll change  
your life and control  
your mind  
I can't relate to it

[Chorus x2]

Kill the fuckin' music industry! xalot

Why?

[Chorus x3]

Kill the fuckin music industry! [x4]
