

# Cold, Makes Her Sick

All the world is just a fake  
Made to drop you when you fall  
Everyone gets blown away  
And everyone is gone  
I can see the only tie  
Links you back to where you came  
No one showed you any hope  
And everyone loves

Well it makes her sick, it makes her throw up

How the needle loves to sing  
Scream your name and take you home  
Found yourself a brand new love  
Made you feel like God  
I can see this all the time  
Mother told you keep it straight  
No one showed you any hope  
And everyone loves

Now the sun has gone away  
And all the love you have is gone  
Now it's all a big mistake  
And you don't feel like God  
I can see the only tie  
Links you back to where you came  
No one showed you any hope
