

# Cold, Outerspace

This is the time  
To let them know who's side your on  
Everythings fine  
No one got raped here  
We had the time  
Set up to leave to go back home  
Back to our lives  
I'll never let go

I wanna go up to outerspace  
No one, but me and you

So far away  
We may become forgotten  
Take off today  
And leave this world

We can't complain  
Suspended high above you  
Nothings the same  
Nothing grows old

I wanna go up to outerspace  
No one, but me and you

Just trying to get back home
