

Cold, Remedy

I don't love how you love
but please don't leave me here alone
I don't feel how you feel
Well it's my fault I'm bones

I don't die how you die
I can't just waste away
You keep changing your life
Everyday

[Chorus]
If it burns I'll keep fueling the same dream
If you fall I'll remember to save game
I don't want your Remedy

I don't fall how you fall
I won't hold on you can't let go
When it's pain I feared
I made you take it slow

I don't cry how you cry
there's nothing left in me
you keep changing my life
everyday

[Chorus 2x]

I don't want
I don't need
I don't want
Remedy

I don't want Remedy!

[Chorus]
