

# Coldplay, Another's Arms

Late night watching TV,  
Used to be you here beside me,  
Used to be your arms around me,  
Your body on my body

When the pin just rips right through me,  
Another's arms, another's arms,  
When the world means nothing to me,  
Another's arms, another's arms,

Late night watching TV  
Used to be you here beside me,  
Is there someone there to reach me?  
Someone there to find me...

When the world just splits right through me,  
Another's arms, another's arms,  
It's just touching through me,  
Another's arms, another's arms,

Got to put yourself into it,  
Another's arms, another's arms,  
Love means nothing to me,  
Another's arms, another's arms...

Got to put yourself into me,  
Another's arms, another's arms,  
Put yourself right through me,  
Another's arms, another's arms,

Late night watching TV,  
Wish that you were here beside me,  
Wish that your arms were around me,  
Your body on my body.
