

Coldplay, Murder

Tie me to a tree
Tie my hands above my head
Sing a song to me
Sing a song like what you said
'Cause they're gonna murder me
They're gonna take me down
Something.
I crumble down
Come spit at us
Come and throw your weight around
Come and fight with us
Come and rock me to the ground
'Cause they're gonna murder me
They're gonna take me down
Something.
I crumble down
So what can it possibly be?
Oh what can it possibly be?
Oh what can it possibly be?
