

Coleske, Share My Life

Share my life, be my friend
as from until now until the end
and I'll try to comfort you in every step you take

For this love could grow stronger
in a world where things go wrong
but together we can face what comes our way

Share my life
'cause I can never live without you
you're the only one I love, I am yours
it didn't take me very long to see; this is nothing but love
so let's share it, 'til the end

Dusk will come and nights will fall
but we will survive it all
'cause we chose the magic light to be our only guide

For this love could grow stronger
in a world where things go wrong
but together completely we'll believe in what we have
