

# Colin James, Getting Higher

Sittin' on the front step  
Watch the world goin' by  
And looking up  
Through the buildings, to the sky  
Yeah

I can see a jet stream  
Someone else is moving on  
So I walk,  
And let the world just pull me along

Mmm, well well

I'm starting to roll  
On my greatest hits  
When I get on a roll I got to go with it  
Moving out into space  
Going in a blur  
This is how it feels getting higher

It's stormy but the sun's out  
Everything is up in the air  
To slow me down  
Cause half the fun is getting there  
I'm giving in to something  
I really know nothing about  
But it feels good  
To let go, and let it out

I'm starting to roll  
I can never resist  
When I get on a roll I got to go with it  
Moving out into space  
Going by in a blur  
This is how it feels getting higher

Nothing is certain  
Everything's moving around me  
Nothing is certain  
Everything's good that surrounds me

guitar solo

I'm starting to roll  
I can never resist  
When I get on a roll I got to go with it  
Moving out into space  
Going by in a blur  
This is how it feels getting higher

I'm starting to roll  
On the greatest hits  
When I get on a roll I got to go with it  
Moving out into space  
Going in a blur  
This is how it feels getting higher

When you get on a roll  
You gotta go with it  
When you get on a roll  
You gotta go with it  
When you get on a roll  
You gotta go higher
