

Colin James, Skydiving

Looking out across the front yard
All the way to the fence
I made this a sanctuary
Now it's my line of defence
I know you're out there
And I want to let you in

Sky diving
I'm falling and there's farther to go
From high and mighty
Back to a place I know, a place I know

I tuned you out
Kept everybody away
Now there's no one around here
When I've got something to say
I made it to the top of the hill
Now all I want to do is jump

Sky diving
I'm falling and there's farther to go
From high and mighty
Back to a place I know

Sky diving
I'm falling and there's farther to go
From high and mighty
Back to a place I know

Sky diving
I'm falling and there's farther to go
From high and mighty
Back to a place I know, a place I know
