

Collide, Wings Of Steel

Wind up your reasons
Demons and ghosts
Wind up your circuitry
Loves you the most

Your wings on fire
But you can't find them
Your wings are higher
I've never seen them before

Chasing wings of steel
Chasing ghosts of time

Wind up your circuitry
Loves you the most
Wind up your complicated
Chasing ghosts

Your wings are tired
You cannot get there from here
Where you aspire
You cannot fly there from here

Chasing the wings of steel
Chasing the ghost of time
Chasing, taste the lie
Chasing the ghost of time

I've come so near, yet so far

In the river of darkness theres a light
In the middle of darkness there a light
Wind up your consequence
Fear will paralyze you

Chasing wings of steel
Chasing ghosts of time
Chasing, taste the lie
Chasing the ghost of time

Walking in the light
Walking in the night
