

# Collin Raye, Gypsy Honeymoon

(Collin Ellingson/Kim Carnes)

Outta her head  
And outta her dreams  
There he was just the way she's seen him  
Lookin' at her a thousand times before

Said I can't believe  
It's been five long years  
Cause tonight they just seen to disappear  
You still look the same  
You haven't changed at all

She said take me away with you  
We can ride on the wind  
Cause I feel a gypsy honeymoon  
Comin' around again  
Throw the car in gear  
Put the zoom on the lens  
Cause we're hot as a gypsy honeymoon  
Comin' around again

He said I still remember  
Her sweet perfume  
When it filled his head  
And it rocked the room  
The walked the wire of passion  
So alive

It's hard to hold on  
In these times  
Did one of us change  
Was it yours or mine  
You just can't imagine  
How lonely I've been

She said take me away with you  
We can ride on the wind  
Cause I feel a gypsy honeymoon  
Comin' around again  
Throw the car in gear  
Put the zoom on the lens  
Cause we're hot as a gypsy honeymoon  
Comin' around again

We chase our hearts like open fires  
Give ourselves to old desires  
Surrender sweet  
And here we go again

She said take me away with you  
We can ride on the wind  
Cause I feel a gypsy honeymoon  
Comin' around again  
Throw the car in gear  
Put the zoom on the lens  
Cause we're hot as a gypsy honeymoon  
Comin' around again
