

Collin Raye, I Can Still Feel You

It's that feeling,
That someone
is standing behind you
and I turn around and there's no one there
and it's the sensation

that someone just whispered
I stil hear your voice but you're not really here
Your memory's like a ghost
and my heart is its host

I can still feel you just as close as skin every now and then
I'll find myself in a crowded room on my empty bed
there's a place you've touched,
with your love, no one gets close to

I can still feel you,
I can still feel you,
I can still feel you,
I can still feel you!

you said you'd love me, forever
then you said it's over
and left me without the missing link
I thought I'd forget you,
But I guess I forgot to
And lately I've been too confused to think
And I reach for someone new
It's like I'm touching!

I can still feel you just as close as skin every now and then
I'll find myself in a crowded room on my empty bed
There's a place you've touched,
with your love, no one gets close to

I can still feel you
I can still feel you
I can still feel you
I can still feel you!

In everything that moves
And everything I do!

I can still feel you just as close as skin every now and then
I'll find myself in a crowded room on my empty bed
There's a place you've touched,
with your love, no one gets close to

I can still feel you
I can still feel you
I can still feel you
I can still feel you!

Uh!
I can still feel you! (still feel you)
Yeah!
