

# Collin Raye, You Still Take Me There

(Brett James/Del Gray/Thom McHugh)

In case I haven't told ya lately  
Just in case it doesn't show  
I'm still enchanted by you baby  
And I just wanted you to know

You were the first one  
And you'll be the last one  
You are the only one, I swear  
You took me to heaven  
Our first night together  
And you still take me there

Whoa I  
Just to have you in my arms tonight  
Oh, how could I ask for more  
You give me hope and strength  
You give me life  
Your love is all I'm living for

You were the first one  
And you'll be the last one  
You are the only one, I swear  
You took me to heaven  
Our first night together  
And you still take me there

You take me higher  
Than I ever dreamed I'd go  
With you I leave the worries  
Of this troubled world below

You took me to heaven  
Our first night together  
And you still take me there

Oh you took me to heaven  
Our first night together  
And you still take me  
Darlin' you still take me  
Baby you still take me  
There
