

Colony 5, Fusion

Hold your breath
Don't let those words out of your head
I want peace, I'll bury the hatchet
Drop your guard
Drop your shield
And the sword you wield
Why do you need
To see me bleed

Close your eyes
I need you tonight
We dream away from fearful fights
Feel your way ahead
Close your eyes
I need you tonight
Feel your way ahead
I'm love in disguise

Hold your breath
Don't ruin this needlessly
Let's start again
Let's see what this will take us
No sentence of death
No words of violence
Embrace the silence
You don't need
