

# Colony 5, Fusion

Hold your breath  
Don't let those words out of your head  
I want peace, I'll bury the hatchet  
Drop your guard  
Drop your shield  
And the sword you wield  
Why do you need  
To see me bleed

Close your eyes  
I need you tonight  
We dream away from fearful fights  
Feel your way ahead  
Close your eyes  
I need you tonight  
Feel your way ahead  
I'm love in disguise

Hold your breath  
Don't ruin this needlessly  
Let's start again  
Let's see what this will take us  
No sentence of death  
No words of violence  
Embrace the silence  
You don't need
