

# Colony 5, Plastic World

If you have lost the genetic lottery  
If you have had an unfair start  
You no longer need to improve your personality  
We have the means  
It's our specialty, actually

Don't compensate -- imitate  
Don't compensate -- operate

A Plastic World  
Everyone wants a model look-alike  
A Plastic World  
No one cares how you look inside

First step -- immorality  
Next step -- immortality

Next chapter -- design your own child  
All you need is fantasy  
Inspiration is all around, in every magazine  
We have the means  
It's our specialty, actually

Don't compensate -- imitate  
Don't compensate -- operate
