

Colony 5, There'll Be a Time

The last one to enter hell
close the door and ring the bell
Cause when we die; we do not end
we regroup and fight again

And if we are to loose our way
By mistake or by betrayal
And be sent up to a god's care
We will take the war over there

With the devil at our side
And the moon as our guide
We break the silent night
And set the world alight

As we are falling down
This is how we meet
Preparing everything
In the leap

There'll be a time
When all the fights are fought
There'll be a time
When all the bribes are bought
There'll be a time
A time you will call peace
There'll be a time
When death will cease

And we are falling down
This is how we die
Preparing everything
In the dive

There'll be a time
When all the fights are fought
There'll be a time
When all the bribes are bought
There'll be a time
A time you will call peace
There'll be a time
When death will cease
