

Colony 5, Trust You

Trust you

Why did I trust you left me here to die

Like in a desert without the most significant life supply

We were meant to be, for eternity

At least I thought it was the way we walked

Through pleasure and pain,

but most the pain

This world are giving us

Why can't we move on?

To the other side

The side you convinced me exists

The way to eternity together we shall leave

To the other side

The side you convinced me exists

The way to eternity together we shall leave

Trust you

Why did I trust you left me here to die

Like in a desert without the most significant life supply

Why did I trust you left me here to die

Like in a desert without the most significant life supply

All those lies you fed me with,

I believed you what a fool I have been

The paradise on the other side

All the planning we made about the suicide

Trust you

Why did I trust you left me here to die

Like in a desert without the most significant life supply

Why did I trust you left me here to die

Like in a desert without the most significant life supply

Trust you

Why did I trust you left me here to die (Trust you)

Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)

Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)

Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)

Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)

Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)

Like in a desert without the most significant...
