

Colony 5, Trust You

Trust you
Why did I trust you left me here to die
Like in a desert without the most significant life supply

We were meant to be, for eternity
At least I thought it was the way we walked
Through pleasure and pain,
but most the pain
This world are giving us
Why can't we move on?

To the other side
The side you convinced me exists
The way to eternity together we shall leave

To the other side
The side you convinced me exists
The way to eternity together we shall leave

Trust you
Why did I trust you left me here to die
Like in a desert without the most significant life supply

Why did I trust you left me here to die
Like in a desert without the most significant life supply

All those lies you fed me with,
I believed you what a fool I have been
The paradise on the other side
All the planning we made about the suicide

Trust you
Why did I trust you left me here to die
Like in a desert without the most significant life supply

Why did I trust you left me here to die
Like in a desert without the most significant life supply

Trust you
Why did I trust you left me here to die (Trust you)
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)
Like in a desert without the most significant...
