

# Color Me Badd, Trust Me

I knew you were the perfect girl  
For my love  
For you I thank the stars in the  
Heaven above  
Love of my life  
Time was on our side  
It took you quite a while to hold my hand  
I was patient baby  
It was all in the plan  
Oh sweet love is blind

I showered you with kisses and flowers  
Held you through the days and the midnight hours  
Did it all because that I wanted  
To open your heart and make  
Chorus

You trust me  
The meaning in my life a sunny day  
I need you as a light to show me the way  
You're a vision of love  
Or baby didn't you know  
This love is gonna last  
Until the end  
You're never gonna have to  
Be alone again  
I'll never let you go

Chorus  
Just a little more time  
Girl I know you'll be mine  
Just a little more  
Just a little  
And with a little more love  
Girl I know that it's just  
Just a matter of trust  
Girl if you really want me  
I really want to be  
Right there by your side or eternity  
And if you really wanna know  
I'll never let you go my baby baby  
I only want you to trust me
