

# Colour, Unicorns

Trace your finger on the sky  
Is the image spoilt by looking twice?  
Make a sound if you'll agree to be my company

I think I saw a unicorn  
Or perhaps a horse in uniform  
Make a sound if...

Habitat  
Your house is just a word  
But I miss that word  
For the minor details

I'll take it back for sure  
For sure  
For sure

It's time I...  
It's time I did what you said

And we all know that roundabouts  
Just spin your head  
And maybe I'm just getting old  
But I'll take the swings instead  
I can't understand the appeal

Habitat  
Your house is just a word  
But I miss that word

I'll take it back for sure

Lost and found  
Find me now  
Stay off ground  
On roundabouts  
Lost and found

Habitat  
Your house is just a word  
But I miss that word  
For the minor details

I'll take it back for sure  
For sure

I'll take it back for sure  
For sure  
For sure

If I can get this situation around my head  
It's time I did what you said  
And I can't talk  
So I'll shout instead

It's time I did what you said  
It's time I did what you said  
It's time I did what you said
