

# Coloursound, State Of Independence

By the by  
I was looking deep into your eyes  
By the way  
In your voice I hear a thousand days  
I command  
A foresight of when you touch my hand  
By the light  
All the coloured rainbows will collide

In this state of independence  
In the state of my mind  
In this state of independence  
I remain, I remain  
In this state of independence  
In the state of my mind  
In this state of independence  
I remain, I remain, I remain

By the by  
I would walk one million hundred miles  
By the way  
I would wait upon the seventh wave  
By the fall  
Though I'm close I'm nowhere near at all  
By design  
All the separation will unite

In this state of independence  
In the state of my mind  
In this state of independence  
I remain, I remain  
In this state of independence  
In the state of my mind  
In this state of independence  
I remain, I remain

Dear friend, I've been thinkin' about the end  
Dear friend, I've been thinkin' about you  
Dear, friend I can't live without you

In this state of independence  
In the state of my mind  
In this state of independence  
I remain, I remain  
In this state of independence  
In the state of my mind  
In this state of independence  
I remain, I remain  
By the by, by the by  
By the by, by the by  
By the by, by the by  
By the by, by the by
