

Coltrane Chi, Turn Me Around

Chi Coltrane

I know I've hurt you
And I wonder if you know
That I never really meant to
No I never really meant to
Things have happened in my life
Which have brought me to the way I am today
Don't you know-- For you I'd gladly change
Turn me around, turn me around
Lead me to the place I should be found
Turn me around, turn me around
Lift me to higher ground
If you really really want to
You know that you can mold me-- to you
It would be so easy
To give up and walk away
But please don't let that happen
We just cannot let that happen
Things that I have done to you
Have made you think that I don't really care
How can I show you you I do?
Turn me around, turn me around
Lead me to the place I should be found
Turn me around, turn me around
Lift me to higher ground.
