

# Coltrane Motion, Slow Down Brother

slow down brother  
you've got to let yourself slide to feel the flow  
get up sister  
you've got to move yourself on the dancefloor

big man's coming round  
all he wants is to keep control  
stand up brother  
you've got to make yourself heard to keep your soul

get down brother  
you've got to see what it's like down below  
sing it sister  
you've got to get the word out and let 'em know  
big man's coming down  
all he wants is to steal your soul  
pass it brother  
you've got to speak up now and take control

the revolution
