

# Combichrist, All Pain Is Gone

Stuck in a hole, enslaved by emptiness  
Fist clenched tight, though I'm not alone  
They're always here, controlling my thoughts  
Every sense, every sound, every image, abstract  
They're all around, watching me die  
Free will, obsolete, intention unknown  
This is the day, the day I'll try  
'Cause this is the day, the day I die

This is the day, the day I die  
All pain undone, all pain is gone

Come set me free, all pain is gone  
Come set me free, all pain is gone  
All pain undone, all pain is gone  
Come set me free, all pain is gone

And it's never enough, the story never ends  
A chapter is closed, another one's revealed  
Razorblade love, I can taste the peace  
Another day gone, another chapter complete  
They're all alone, watching me die  
Free will obsolete, intention unknown  
This is the day, the day I'll try  
'Cause this is the day, the day I die

Come set me free, all pain is gone  
Come set me free, all pain is gone  
All pain undone, all pain is gone  
Come set me free, all pain is gone

Come set me free, all pain is gone  
Come set me free, all pain is gone  
All pain undone, all pain is gone  
Come set me free, all pain is gone
