

Combichrist, Get Your Body Beat (Spetsnaz remix)

Take your brain to set the score
Can you take the pain at all?
I tried to understand you girl
But you gotta earn it
Fuck it up and let it go

Get your body beat
Let your blood flow
Get your body beat
Let your blood flow
Get your body beat
Let your blood flow
Get your body beat
Let your blood flow

Doesn't matter what you say
Never understood at all
Don't give a fuck what people say
Glad your piece is just for show
Rape it, snake it, don't let go

Get your body beat
Let your blood flow
Get your body beat
Let your blood flow
Get your body beat
Let your blood flow
Get your body beat
Let your blood flow

Get your body be-at
