

# Commissioned, Charge It To My Head

I was looking back on yesterday  
I saw my favorite photograph of you and me  
You were my pride and joy  
The one my heart beats for  
And you will always be  
The apple of my eye

(Chorus)

If ever I forget to say I love you  
Please believe I do  
If ever I forget to say I care  
If ever I forget to say I miss you  
When we're apart  
Charge it to my head and not my heart

I found the picture that you drew of our family  
I couldn't help but notice  
You were waving goodbye to me  
I realized that we are often apart  
But I want you to know  
That you are close to my heart

(Bridge)

You will always be a very special part of me  
Everything I do, I do for you
