

# Common Children, Always On The Outside

Come back  
Come on tell me you'll be coming back  
Cause I know  
Summer's got us dusty from the road  
But it's high time we sail around  
And celebrate the breaking of the clouds  
And it's a fine wine to pass around  
Even so it sometimes gets you down

I search for words to say  
To keep your heart from breaking  
But at the end of the day  
I'm on the outside waiting  
For you to come around  
For you to come around

Sweetheart  
Let's take a drive and ride beneath the stars  
And drive slow  
It's time to leave the past - let it go  
Now it's high time we turn around  
For soon the night will fall and bring us down  
But this sad talk I won't recall  
Cause underneath this sky we got it all  
We got it all

I search for words to say  
To keep your heart from breaking  
But at the end of the day  
I'm on the outside waiting  
For you to come around

I search for words to say  
To keep your heart from breaking  
But at the end of the day  
I'm on the outside waiting  
(I hope you come around)  
There's so much I could say  
To keep your heart from breaking  
(I hope you come around)  
But at the end of the day  
I'm on the outside waiting  
For you to come around
