

Common Children, Drift

Step out on the water
I sink down farther
I try my best to imagine you
Beautiful

Head to head in a corner
We breathe in the moment
I lose myself in your glassy blue
Beautiful

We wait for our perfection
We seek out our direction
Out of here
Find a way out of here

All too human
Sinners sing in the shadows
I connect my thoughts from me to you
Beautiful

We wait for our perfection
We seek out our direction
Out of here
Find a way out of here

Show me the way
Step out on the water (Show me the way)

We wait for our perfection
We seek out our direction
Out of here (Show me the way)
We wait for our perfection (Show me the way)
We seek out our direction
Out of here (Show me the way)
Find a way out of here (Show me the way)
I gotta get out of here
Show me the way out of here
