

Company Of Thieves, New Letters

I fell in love when you were brushing your teeth
Over my kitchen sink

I have no means for distraction
No fuel that feeds the reaction
I just came all this way just to say
I really do believe
This was much more than "meant to be"

I fell under when you were waiting for me
Over lines far from time
What do they mean?

I have no means for distraction
No fuel that feeds the reaction
I just came all this way just to say
I really do believe
This was much more than "meant to be"
I really do believe in you
I really do believe in this

I won't give up
I can't give in
Can't get enough
Where to begin?

I won't give up on you
I can't give in
Can't get enough of this
Where to begin?

I won't give up
I can't give in
Can't get enough
Where to begin?

I won't give up on you
I can't give in
Can't get enough of this
Where to begin?
Oh, where to begin?

Let's all get together and start a cure
Let's all get together and start over
Over

Let's all get together and start a cure
Let's all get together and start over
Over
Over
Over
Over
