

Complete Control, Never Been Diseased

you claim you know the way
i've seen you fall out of place

you say you felt a cause
you dont now, so you never knew the way

some say we're born to late
the new generation is lost

never been diseased
i'll never fade away
never been diseased
you're the first to turn yur head
never been diseased
i know where we're from
never been diseased
the scene for you has been dead
