

# Conchita Wurst, See Me Now

so here we are  
in the cold rain ...

you could see me rich  
you could see me drown

quite observe my mind  
already travel far  
further then your eyes  
further then your heart

cause you would say hold  
I would leave  
I was born to show you  
how we're born to keep  
you get me now  
you get me now

so here we are  
in the cold rain ...

I was sad alone  
stranger by the time

see me now  
see me now now now  
see me over that  
see me over that  
let me gonow  
see me now  
see me now now  
see me over that  
see me now  
see me now  
see me over that  
not say goodbye

hand with hand  
I can walk  
I can leave  
I can hold my pride  
but where is me

...  
wish ...  
would we change

.....

see me now  
see me now now now  
see me over that  
see me over that  
let me gonow  
see me now  
see me now now  
see me over that  
see me now  
see me now  
see me over that  
not say goodbye
