Connells, Saturday Nite (Usa)

They say you've been around They say you've been uptown Funny, I was with you I just can't recall But they say you've been around

They say you've been denied A chance at yourself They say you even tried To make a go Funny, it's been so hard To try and understand They say you've been untied I'll see for myself

It's a weird and wonderful time It's been so long I thought I'd better ask

Let's settle it now Isn't there something that keeps us alive Let's settle it now It's got to get better And better's alright
