

Connie Francis, Love is me

Come on, Baby, let's tell all the people
We've found a way to mend the blues
Let's get together and just start a rumor
That everyone will think it's news
Love is warm, love is fine
Love is yours, love is mine
Love is free, love is true
Love is me, love is you
Come on, Baby, let's tell all the people
That love is such a wonderful thing
Let's get together and just start a notion
That everybody else can sing
Love is warm, love is fine
Love is yours, love is mine
Love is free, love is true
Love is me, love is you
Come on, Baby, let's tell all the people
That love will never pass you by
Let's get together and just start a habit
That everybody else can try
Love is warm, love is fine
Love is yours, love is mine
Love is free, love is true
Love is me, love is you
Come on, Baby, let's tell everybody
That love is stil the greatest yet
Let's get together and just start a gimmick
That nobody else can forget
Love is warm, love is fine
Love is yours, love is mine
Love is free, love is true
Love is me, love is you
Love is warm, love is fine
Love is yours, love is mine
Love is free, love is true
Love is me, love is you
Love is warm...
