

Connie Smith, As Long As We've Got Each Other

As long as we've got each other to love and to share
We've got the answer to all our hope and care
As long as we've got each other to have and to hold
The arms of love we'll never let our love grow cold
Life would be so empty without you by my side
The love I feel within me is forever deep and wide
As long as we've got each other there's no reason to fear
The world will pass us by and never leave a tear
[ac.guitar]
Life would be so empty...
