

Connie Smith, Darling Days

If I never love again I won't feel cheated you gave me more than I knew how to use
On the day we met my journey was completed
Even though my odden years won't be with you
Seems like yeasterday we called each other darling
Seems like yesterday you reached and touched my hand
I'd love to hear you say good morning darling
Oh what I'd give to live those darling days again
[steel]
Today my heart survives on love that's borrowed
From all the happy yeasterdays we knew
If I knew for sure the world would end tomorrow
I just have to spend my last day loving you
Seems like yeasterday...
What I'd give to live those darling days again
