

Connie Smith, Don't Walk Away

Don't walk away from me darling is that the way it has to be darling

Can't we start our love anew don't tell me our love is through

Oh darling please don't walk away

Now that you want to go darling I realize I love you so darling

Don't turn your back on me I don't want to be set free

Oh darling please don't walk away

[steel]

I know now I put everything above you so how were you to really know I love you

Yes I was blind but now I see that you say you still love me

And darling please don't walk away

Don't walk away from me darling is that the way it has to be darling

Can't we start our love anew don't tell me our love is through

Oh darling please don't walk away my darling tell me that you'll stay
