

# Connie Smith, For Better Or For Worse

The wedding bells have barely stopped their ringing  
But already all your love for me is gone  
On the day that we were wed well I guess we should have said  
For better or for worse but not for long  
Now my dream of love has turned into a nightmare  
For you say that in your life I don't belong  
You said your vows I said mine but we both left out one line  
For better or for worse but not for long  
[ steel ]  
All the lifetime that we planned has been a short one  
And the love that couldn't die did not live long  
I wanted you eternaly but you only wanted me  
For better or for worse but not for long for better or for worse but not for long
