

Connie Smith, I Love Charlie Brown

They tell me Homer Jones was out a huntin' bear
When a big ole grizzly killed his favorite hound
The morning paper says our only beauty shop burned down
But it don't worry me cause I love Charlie Brown
Yes I know I love him so and I'm proud to be the girl
To hold his hand while travelin' through this world
So let the sun come up and shine or let the sun go down
It don't worry me cause I love Charlie Brown
[fiddle]
Recieved the letter from the folks today and locusts ate the corncrop to the ground
And they said to do freeway will separate and run our town
But it don't worry me cause I love Charlie Brown
Yes I know I love him so...
It don't worry me cause I love Charlie Brown
