

# Connie Smith, If I Talk To Him

If I talk to him I take him back again so if he calls please tell him I'm not home  
He's gone again I told him we were through  
That he could live his life the way he wanted to  
I said my love for him had died but I know it's not true  
And if I talk to him my feelings would show through  
Yes if I talk to him I take him back again I'm afraid to even answer the phone  
Cause if I talk to him I take him back again  
So if he calls please tell him I'm not home  
[ steel ]  
I tell my heart I'm better off without him now  
But like the other times he change my mind somehow  
He'd shed some tears and talk sweet talk I'm sure that I believe  
But this time it's the end if he'll just let me be  
But if I talk to him I take him back again...
