

Connie Smith, If It Ain't Love (Let's Leave It Alone)

If it ain't love then let's don't even let it start let's leave it alone
If it ain't love then let's don't temp our foolish hearts let's leave it alone

Happiness is free just like a rollin' stone and only love can make it stay at home
Feelin's have a way of mixin' right with wrong if it ain't love let's leave it alone
If it ain't love...

[fiddle]

Togetherness can fade like the music of a song
It comes and goes like the breaking of the dawn
How could we hang on to somethin' that was gone if it ain't love let's leave it alone
If it ain't love...
If it ain't love...
