

Connie Smith, If The Whole World Stopped Lovin'

If the whole world stopped lovin' the way you stopped lovin' me
Have you ever stopped to wonder what kind of place this would be
If the whole world stopped lovin' the way you stopped lovin' me
If every heart was broken the way that you broke my own
And the whole world stopped lovin' how long would living go on
Hear the church bells in the steeple as they ring their song through the air
If the whole world stopped lovin' there'd be no steeple bells there
The tears would fill the rivers till the rivers flooded the sea
If the whole world stopped lovin' the way you stopped lovin' me
If the whole world stopped lovin' the way you stopped lovin' me
